2. I believe as they beat on his beautiful face
 He turned a torturer's chair to an altar of grace
 Where the worst we can do met the best that God does
 Where unspeakable hate met the gaze of unstoppable love
 At the crux of it all there he hangs
 I've placed my hope in a crucified...

3. When the purest and best took the force of our curse
 Death's victory armada juddered into reverse
 And either we bow or we stumble and fall
 For the wisdom of a suffering God has made fools of us all
 I gladly admit that I am
 But I've placed my hope in a crucified...

4. I have buried my life in the cold earth with him
 Like a seed in the winter, I wait for the spring
 From that garden of tombs Eden rises again
 And Paradise blooms from his body and never will end
 He'll finish all he began
 Creation hopes in a crucified man
